SILworX®

Licensing Models

License variants for every requirement

Automation solutions require high-performance software that can be efficiently and flexibly adapted to every requirement. HIMA offers different types of SILworX license models for user-specific programming. Each SILworX license is available as either a hardlock or softlock version.

SILworX Base Licenses

- Full license
- HIMatrix® license
- Maintenance license
- Server license

SILworX®

The SILworX base license offers various variants. This is a particular benefit for smaller installations and large maintenance departments that require many licenses. Depending on the selected license variant, investment costs can be reduced by up to 50%.

SILworX Optional Licenses

- C-Code Function Block
- Safety Simulator
- Typical Import
- Smart Safety Test
- API
- COMPARATOR PLUS
- API NOGUI
- Plug-In
- Multi-File Project

SILworX®

In addition to the base license, HIMA provides a range of optional features that can be technically combined with any of the base licenses. The HIMA support team will assist you in assembling the optimal license combination for your requirements.

SILworX Leasing Packages

- SILworX Bronze
- SILworX Silver
- SILworX Gold
- SILworX Platinum

SILworX is also available as a leasing model. HIMA offers a five-year contract with an annual payment. After the contract period, the contract can be extended or the license can be returned.

Benefits

The appropriate SILworX license enables you to develop your applications in a compliant, efficient and future-proof manner.

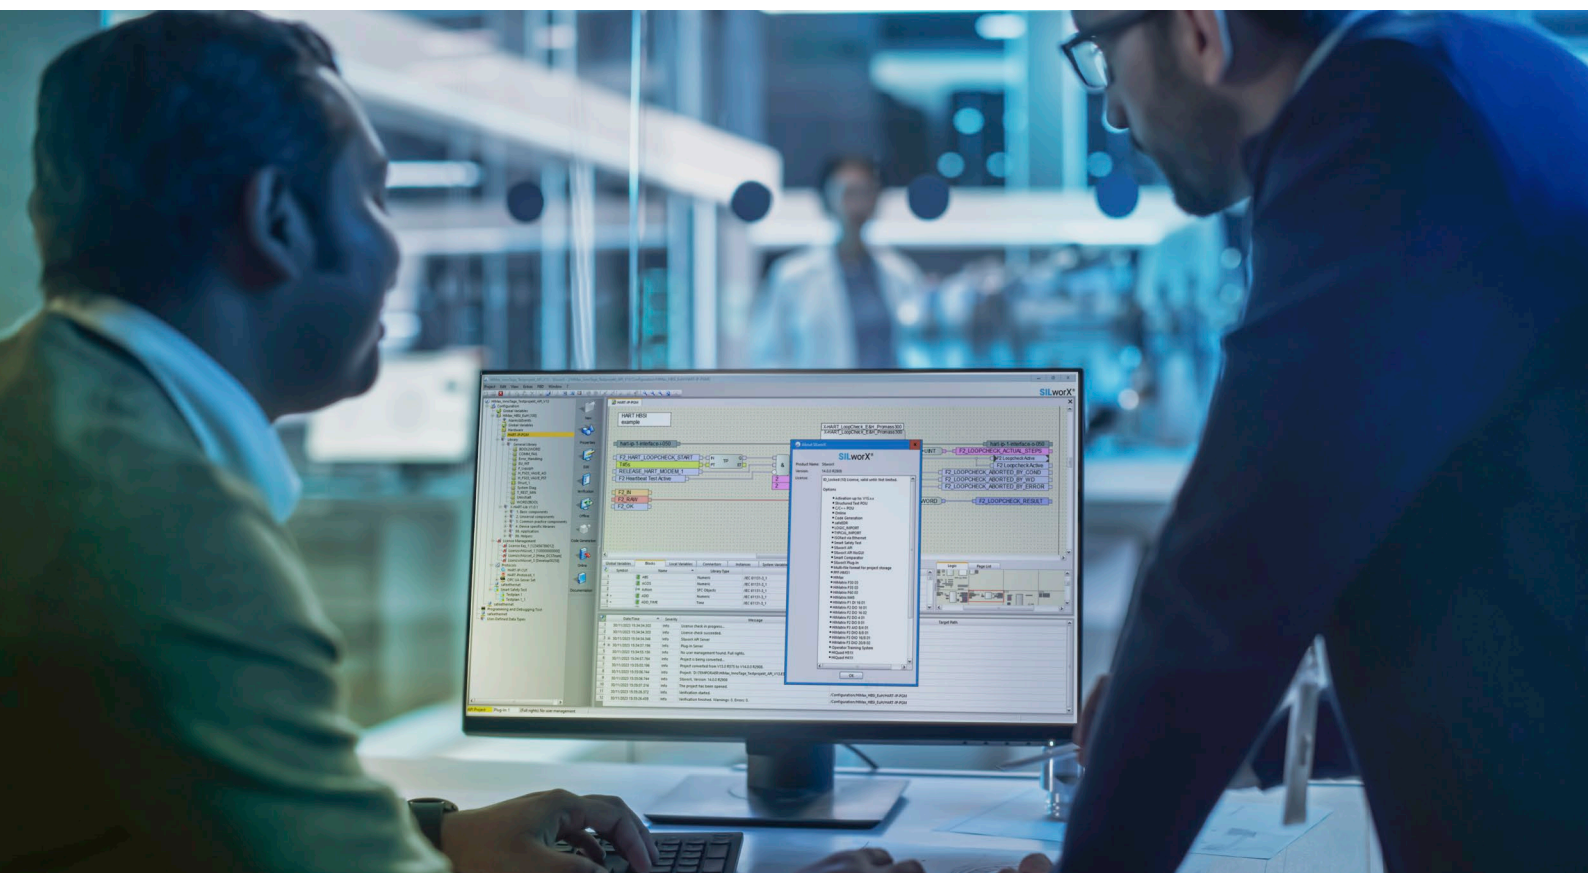

- ✓ Lower costs
- ✓ Greater flexibility
- ✓ More security
- ✓ More safety

Installation

The SILworX installation is independent of the license variant and an additional option. The functions are determined by the license used. SILworX is always easy to install and easy to use. Thus, for example, there is no need to manage special software installations or additional software modules and their associated versioning.

Compatibility

The full license is downward compatible with the previous SILworX versions. The license variants (HIMatrix license, maintenance license) can be implemented from SILworX version V6.1xx.0. When changing versions, project data can be converted automatically (maybe a step-wise conversion might be necessary). In this process the data check-sums remain intact. Nevertheless, from version V11.14.0 onwards, SILworX is a 64 bit program and can only run on 64 bit operating systems. HIMA recommends always using the actual SILworX version, as this contains all the latest functional enhancements and bug fixes.

SILworX Licensing Models

SILworX Base Licenses

Available from SILworX version V6.1xx0.

Part Number	SILworX Base Licenses
895200001	Full license (hardlock)
895300001	Full license (softlock)
895200100	HIMatrix license (hardlock)
895300100	HIMatrix license (softlock)
895200200	Maintenance license (hardlock)
895300200	Maintenance license (softlock)
895501002/3	Server license full version BASE + extension (hardlock or softlock)

SILworX Optional Licenses

Additional options for the above listed base licenses.

Part Number	SILworX Optional Licenses	SILworX Version (Minimum Requirement)
895600006	C-Code Function Block A1	(>=V5.34.0)
895900001	Safety Simulator A2	(>=V4.116.0)
895620003	Typical Import A4	(>=V9.36.0)
895615008	Smart Safety Test A5	(>=V10.64.0)
10000000000442	API A6	(>=V12.28.0)
10000000001293	COMPARATOR PLUS A7	(>=V13.0.0 R937)
10000000001471	API NOGUI A8	(>=V13.2.0 R26)
10000000002777	Plug-In A9	(>=V14.0.0 R2908)
10000000002778	Multi-File Project A10	(>=V14.0.0 R2908)

SILworX Leasing Packages

Including SILworX full version and updates during leasing period.

Part Number	SILworX Leasing Licenses	Packages
10000000005435	Bronze	Hardlock without options
10000000005436	Bronze	Softlock without options
10000000005437	Silver (Ed. 2024)	Hardlock with options A5, A7
10000000005438	Silver (Ed. 2024)	Softlock with option A5, A7
10000000005439	Gold (Ed. 2024)	Hardlock with options A4, A5, A6, A7, A8, A9
10000000005440	Gold (Ed. 2024)	Softlock with options A4, A5, A6, A7, A8, A9
10000000005441	Platinum (Ed. 2024)	Hardlock with options A1, A2, A4, A5, A6, A7, A8, A9, A10
10000000005442	Platinum (Ed. 2024)	Softlock with options A1, A2, A4, A5, A6, A7, A8, A9, A10
